

SINGAPORE CHINESE GIRLS' SCHOOL FIRST SEMESTRAL ASSESSMENT 2022

PRIMARY 5

MATHEMATICS

PAPER 1 (BOOKLET A)

Total Time for Booklets A and B: 1 h

Nar	me :() 31	October 2022
Cla	ss : Primary 5 SY / C / G / SE / P	
Mat	thematics Teachers	
Mrs	El Leen Lau / Mrs Eng Ke Ying / Ms Goh Al Ling / Mrs Kristene Ong / Ms	Wong See Wan
INS	STRUCTIONS TO CANDIDATES	
1.	Do not open this booklet until you are told to do so.	
2.	Follow all instructions carefully.	
3.	Answer all questions.	
4.	Shade your answers in the Optical Answer Sheet (OAS) provided.	
5.	You are not allowed to use a calculator.	

This booklet consists of $\underline{5}$ printed pages and $\underline{2}$ blank pages

BLANK PAGE

Booklet A

Questions 1 to 10 carry 1 mark each. Questions 11 to 15 carry 2 marks each. For each question, four options are given. One of them is the correct answer. Make your choice (1, 2, 3 or 4) and shade your answer on the Optical Answer Sheet. (20 marks)

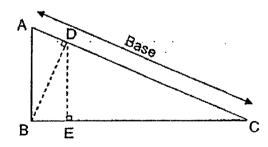

- 1. Round off 42 808 to the nearest hundred.
 - (1) 42 000
 - (2) 42 800
 - (3) 42 900
 - (4) 43 000
- 2. What is the value of 20 thousands, 12 hundreds and 5 tens?
 - (1) 320 050
 - (2) 210 205
 - (3) 32 050
 - (4) 21 250
- 3. Express $3\frac{3}{4}$ as a percentage.
 - (1) 300.34%
 - (2) 300.75%
 - (3) 334%
 - (4) 375%
- 4. There are 40 students in a class. 16 students wear glasses. What is the ratio of students who do not wear glasses to the total number of students?
 - (1) 2:3
 - (2) 2:5
 - (3) 3:5
 - (4) 3:10

5. Arrange the following from the largest to the smallest.

2.5 $\frac{3}{5}$ $\frac{3}{2}$

Largest Smallest (1) 2.5 , $\frac{3}{5}$, $\frac{3}{2}$ (2) 2.5 , $\frac{3}{2}$, $\frac{3}{5}$ (3) $\frac{3}{2}$, 2.5 , $\frac{3}{5}$

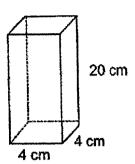

- 6. 200 bags cost \$7040. What is the cost of 1 bag?
 - (1) \$3.52
 - (2) \$7.40
 - (3) \$35.20
 - (4) \$70.40
- 7. Identify the height of Triangle ABC given that the base is AC.
 - (1) AB
 - (2) BC
 - (3) BD
 - (4) DE

8. What is the volume of the cuboid?

- (2) 160 cm³
- (3) 320 cm³
- (4) 400 cm³

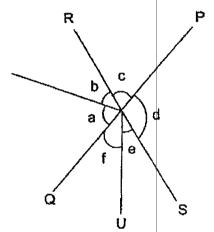

9. PQ and RS are straight lines. Which of the following is false?

(1)
$$\angle c = \angle e + \angle f$$

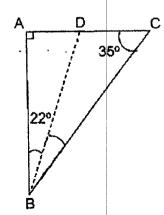

(2)
$$\angle a + \angle b = \angle d + \angle e$$

(3)
$$\angle a + \angle b + \angle c = 180^{\circ}$$

(4)
$$\angle c + \angle d = 180^{\circ}$$

- 10. Figure ABC is a triangle. ∠ABD is 22° and ∠ACB is 35°.
 Find ∠DBC.
 - (1) 330
 - (2) 55°
 - (3) 57°
 - (4) 68°

- 11. Peter made 12 bracelets in the morning and 24 bracelets in the afternoon. He sold all the bracelets at 2 for \$12. Which number sentence represents the total amount of money collected by Peter?
 - (1) $12 + 24 \div 12 \times 2$
 - (2) $(12 + 24) \div 2 \times 12$
 - (3) $12 + 24 + 2 \times 12$
 - (4) $(12 + 24) \times 2 + 12$
- 12. A pattern is formed using the digits 1, 2 and 0. The first 17 digits are shown below. What is the sum of the first 35 digits?

1	2	Ö	0	1	1	1	2	0	0	1	1	1	2	0	0	1
1 st	2 nd	3 rd		n dref vill skienerhern						, n- 			*		***	

- (1) 25
- (2) 29
- (3) 35
- (4) 39
- 13. A pencil is 5.4 cm long. A pen is 3 times as long as the pencil. What is the total length of the pen and pencil?
 - (1) 15.12 cm
 - (2) 16.2 cm
 - (3) 20.16 cm
 - (4) 21.6 cm

- 14. There are 42 cars and motorcycles in a carpark. Which of the following is <u>not</u> a possible ratio of the number of cars to the number of motorcycles in the carpark?
 - (1) 6:7
 - (2) 5:2
 - (3) 3:4
 - (4) 3:11
 - 15. A salesman earns \$0.50 for every 7 pens sold. He earns an extra \$1 for every 20 pens sold. How much will he earn if he sold 142 pens?
 - (1) \$7.00
 - (2) \$8.00
 - (3) \$10.00
 - (4) \$17.00

BLANK PAGE

Questions 16 to 20 carry 1 mark each. Write your answers in the spaces provided. For questions which require units, give your answers in the units stated. (5 marks)

16. Express 1.05 as a mixed number in its simplest form.

Ans:

17. Use all the digits to form a number closest to 90 000.

7

8

9

2

1

18. 5 boys shared 6 pizzas. What fraction of the pizzas did each boy get?

Ans: _____

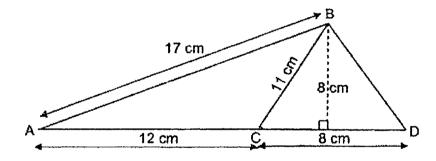

Ans

19. Mr Tan was given 124 sweets. He packed all of them into bags of 8 with some left over. How many sweets were not packed into the bags?

Do not write in this column

Ans: _____

20. The diagram below is not drawn to scale. Find the area of triangle ABC.

Ans: _____ cm

	/_
_/	つ
	-E
<u> </u>	

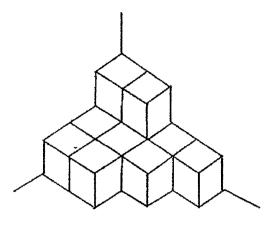

ni ejiw jon od Questions 21 to 30 carry 2 marks each. Show your working clearly and write your this column answers in the spaces provided. For questions which require units, give your (20 marks) answers in the units stated. 21a. Convert to grams. 3.085 kg = ______g Ans: _____ 9 21b. Convert to kilometres. 5020 m = _____ km Find the perimeter of square below. Give your answer as a mixed number 22. in its simplest form.

23. A tin of milk powder weighs 2.5 kg. Mrs Tan bought 10 tins of milk powder and Do not write in this column Mrs Farhan bought 20 tins of milk powder. What is the total mass of the tins of milk bought by Mrs Tan and Mrs Fahan? Ans: _____ 24. A basket contains red, blue and yellow balls. The ratio of the number of red balls to the total number of balls is 2:5. The ratio of the number of blue balls to the number of yellow balls is 1:5. What is the ratio of the number of red balls to the number of blue balls?

Do not write in 25. The three sides of a triangle are in the ratio 2:3:4. The perimeter of the this column triangle is 135 cm. What is the length of the shortest side of the triangle? Ans: _ 60 pupils took part in a Math Olympiad Competition. 24 of them won the 26. gold award. What percentage of the students won the gold award?

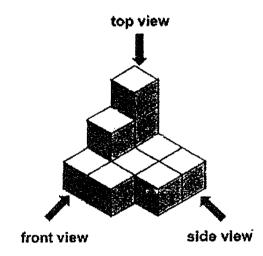

27. What is the least number of unit cubes that must be added to the figure below to form a cube?

Do not write in this column

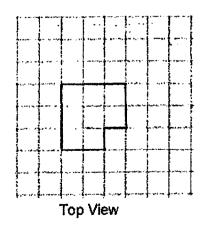

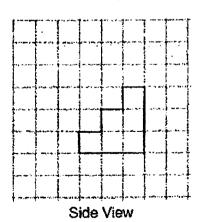

Ans:

28. Oliver stacked 11 unit cubes to form the solid figure below.

Draw the top view and the side view of the solid on the grids below.

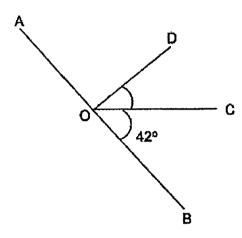

4

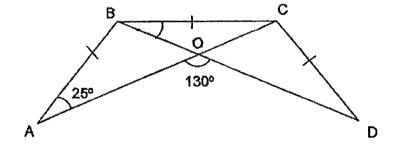

29. In the figure, not drawn to scale, AOB is a straight line. ∠AOD is 2 times of ∠DOC. Find ∠DOC.

,		
Ans:		i
Alio.		

30. In the figure below, ABC and BCD are two identical triangles.Given that AB = BC = CD, find ∠OBC.

Ans:	٥

4

	<u> </u>

This booklet consists of 13 printed pages and 2 blank pages.

BLANK PAGE

Questions 1 to 5 carry 2 marks each. Show your working clearly and write your answers in the space provided. For questions which require units, give your answers in the units stated. (10 marks)

Do not write in this column

1. What is the missing number in the equation below?

$$+ 18 \times 5 + 3 - 2 = 32$$

Ans:

2. Kelly has a ribbon of length $\frac{5}{6}$ m. She used $\frac{1}{4}$ m to make a bow and $\frac{1}{2}$ of it to wrap a present. How much ribbon was left?

Ans: ______ m

/

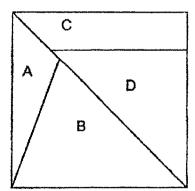

3. Mrs Jacobs is now 38 years old. In 4 years' time, she will be 6 times as old as her son. How old is her son now?

Do not write in this column

4. The diagram below shows a square. The ratio of area A to area B is 2:5.

The ratio of area C to area B is 3:5.

Find the ratio of area A to area D. (Give your answer in the simplest form.)

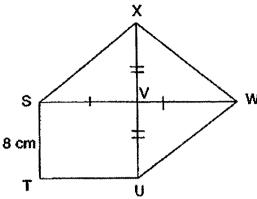

Ans:	
------	--

4

The perimeter of rectangle STUV is 36 cm. XVU and SVW are straight lines.
 Line ST is 8 cm. Find the area of triangle SWX.

Do not write in this column

Ans: _____ cm

	/	7
_	2	

For questions 6 to 17, show your working clearly and write your answers in the spaces provided. The number of marks available is shown in brackets [] at the end of each question or part-question. (45 marks)

Do not write is this column

6. Mr Ishak paid a total of \$447.60 for 3 tables and 9 chairs. Each chair cost \$15.20 less than a table. Find the cost of a chair.

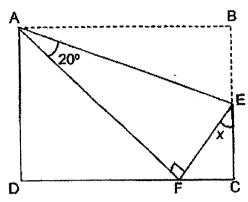

Ans: \$ [3]

7. Ronny had some money. He spent $\frac{1}{5}$ of it on a watch and $\frac{3}{8}$ of the remainder on some books. He had \$105 left. How much money did he have at first?

Ans: _____ [3

8. The figure below shows a rectangle ABCD. It is folded along line AE as shown below. Given that ∠EAF is 20°, find ∠x.

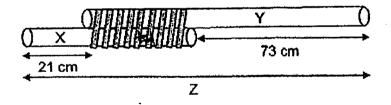

Do not write in this column

	•	
Ans:	· · · · · · · · · · · · · · · · · · ·	[3]
MIIO.		[0]

9. Two rods, X and Y were tied to form a longer rod, Z as shown below. The ratio of the length of Rod X to the length of Rod Y is 3:5.

Find the length of Rod Z.

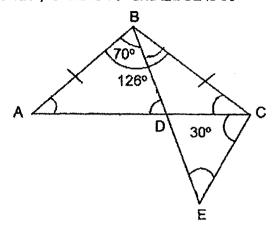

Ans:	 [3]

10. In the figure, not drawn to scale, ABC is an isosceles triangle.BDE is a straight line. ∠ABC is 126°, ∠ABD is 70° and ∠DCE is 30°

Do not write in this column

(a) Find ∠BCD.

Ans: (a) _____[1]

(b) Find ∠CED.

Ans: (b) _____[2]

11. Anthony has 70 more toy cars than Bala. $\frac{1}{4}$ of Anthony's toy cars is 25 more than $\frac{1}{5}$ of Bala's toy cars. How many toy cars do they have altogether?

Do not write in this column

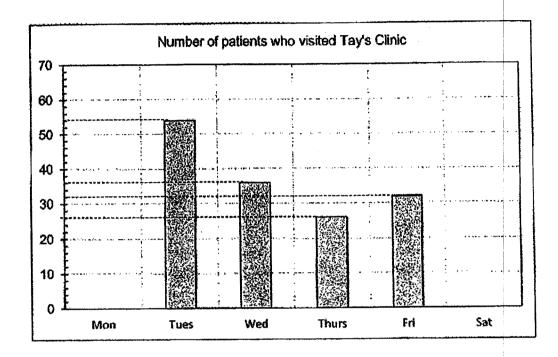

Ans: [4

/

12.	The usual price of a dress is \$118.75. Mrs Tan was given a 20% discount. (a) How much is the discount?	Do not write in this column
	Ans: (a)[1] (b) Mrs Tan paid an additional 7% of GST on the discounted price of the	
	dress. How much did she pay for the dress including the GST?	

13. The graph shows the number of patients visiting Tay's clinic on a certain week. The clinic was closed on Monday.

Do not write in this column

(a) What was the total number of patients from Tuesday to Friday?

Ans: _____[2]

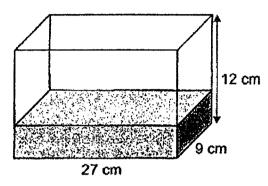

(b) Given that the average number of patients from Monday to Saturday is 34, how many patients were there on Saturday?

Ans: _____[2]

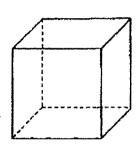

4

Do not write in this column

14. Tank A is 27 cm by 9 cm by 12 cm and it is ¹/₄ - filled with water. All the water from Tank A is poured into container B and it filled container B to the brim. Given that all sides of container B are equal, what is the base area of container B?

Tank A

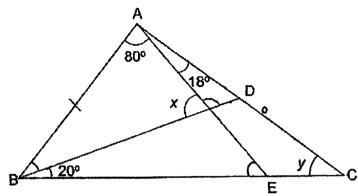

Container B

Ans:_____[4

15. In the figure, not drawn to scale, AB = AE and BD and BEC are straight lines.

Do not write in this column

(a) Find $\angle x$.

Ans: _____[2

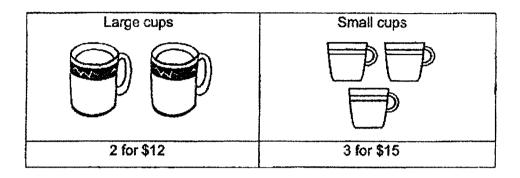

(b) Find ∠y.

Ans: _____[2]

4

Janice and Kelly bought some cups from a stall. The cups are sold in sets of2 and 3 cups as shown below.

Do not write in this column

(a) Janice bought an equal number of large and small cups. She spent \$24 more on large cups than small cups. How many cups did she buy altogether?

(b) Kelly bought 6 large cups and had \$50 left. She bought as many small cups as she could with the remaining money. What fraction of the cups she bought were small cups?

Ans: (b) [2]

5

Do not write in this column

- Tory spent $\frac{1}{4}$ of her money on 5 books and 15 sheets of stickers. The cost of 17. each book is 9 times the cost of each sheet of sticker. She bought more books with the remaining amount of money. (a) How many books did she buy with the remaining amount of money?

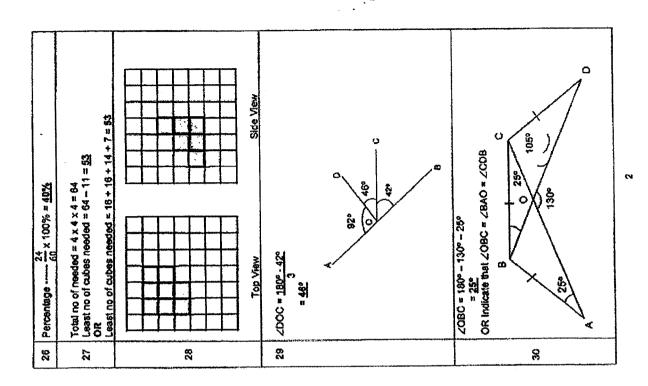

(b) Given that Tory spent \$231 more on all the books than all the stickers. What is the cost of 1 sheet of sticker?

Ans (b): _

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 8
```

```
And 18 stickers = 2 books

No of books (from remaining money) = 18 books + 2 books = 20 books

(b)

Total units spent on books = 180u + 45u = 225u

Total units spent on stickers = 15u

Oifference = 225u - 15u = 210u

1 sheet of sticker, 1u = $231 + 210 = $1.10
